

**GREASE SAFE®**

## The best practice system for grease cartridge storage, handling and identification.

GREASE SAFE® is the innovative, professional solution for optimal grease cartridge storage and handling. Simple, reliable and durable, GREASE SAFE® improves workplace organization and productivity by making the transportation and storage of both new and used grease cartridges easy, clean and safe.

Innovative, practical and durable, the color coded GREASE SAFE® system:

Store up to 12 cartridges per rack.

Tube protects grease cartridge from contamination, weather, and accidental damage.

The CARTRIDGE CADDY and CARTRIDGE PROTECTION TUBE are manufactured from market-leading materials for strength and durability.

Ability to store cartridges provides superior workplace organization.

Store and transport as many as 6 cartridges per caddy

### The advantages of Grease Safe:

- Minimizes spillage and waste.
- Improves ISO, BRC and IFS compliance.
- Protects grease cartridges from contamination, weather and accidental damage.
- Enables clean, safe return of used cartridges from site.
- Eliminates the frustration of trying to locate grease cartridges when needed.
- Transports cartridges easily on-site and in vehicles, with the purpose built Cartridge Caddy 6-pack.
- Provides superior work place organization with the wall mounted Cartridge Rack.

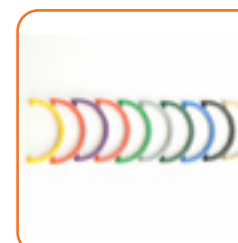

Wall-mounted rack is strong and durable eliminates the frustration of trying to locate grease cartridges when needed.

Hang cartridges vertically for optimal shelf life.

Transparent containers support quick identification of contents.

Color-coded hooks enable easy identification of grease cartridges.

Get the right grease in the right location by color coding your labels, and keep grease fittings clean and protected at the same time.

*Exclusively from ENLUSE BV and authorized distributors, the world's only system for complete fluid transfer management.*

GREASE SAFE® is part of an innovative family of products that combine to form a revolutionary system for managing lubricants from bulk storage to the point of use. The fully integrated Reliability Brands product system includes:

#### LABEL SAFE™

Highly visual, simple and reliable, the LABEL SAFE™ Advanced Labeling System ensures the right lubricant goes into the right machine every time.

#### OIL SAFE®

For more than a decade, OIL SAFE® has been the oil transfer management system preferred by leading companies around the world.

### Cartridge caddy

Enables safe and efficient storage and transport of grease cartridges from vehicle or shop to point of use.

nr: 300108

### Cartridge rack

Facilitates the vertical storage and organization of grease cartridges for maximum life and ease of location and access.

nr: 300208

### cartridge protection tube

Protects grease cartridges from damage and weather and provides for color coding and safe, clean transport from vehicle or shop to point of use. Comes ex-factory with black hanging hook.

nr: 300000

### Cartridge tube hanging hook

Enables the color-coded identification of grease cartridges within the protection tubes and provides the ability to hang grease cartridges up for complete organization in the workplace. Select hook colors of your choice to fit to your cartridge protection tube.
